

MEMBERSHIP

Become a member of the openmovement association or/and cooperative and be part of our common future (1 billion humans are members of cooperatives, making up for an economy the size of Canada's!)

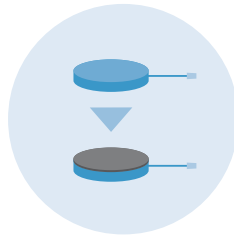

You can also ...

... make parts on your own with your own finish, decoration or design based on plans that have been published under Creative Commons ShareAlike 3.0 license for components that have been prototyped and tested successfully

PARTS & COMPONENTS

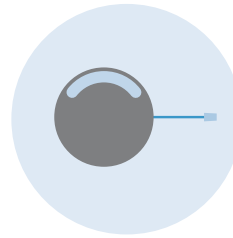

Buy parts, components and kits in the quantities you need

KNOW-HOW

Use your know-how to finish and then assemble the movements, or find a watchmaker or a company that does it for you

... add a module of your own invention and property

SIGNING

Sign the movement with your brand or name: it stands for the level of quality and finish of the work you've done

Sign the movement with the OM-movement identity (OM 10): it stands for quality and credit to the community of constructors that worked on it

... sell your movements to a watch-brand

DESIGN

Design your watch, produce the parts and assemble your own masterpiece.
